

« Chromatin club » Tuesday 4th October 2022

Program

- 14h00-15h00 **DNA methylation satellite repeats and genome stability: perspectives from studying rare genetic disorders**
Claire Francastel (*Institut Épigénétique et Destin Cellulaire, Paris*)
- 15h00-15h30 **Safeguarding paternal chromosome identity in the fly zygote**
Benjamin Loppin (*LBMC, Lyon*)
- 15h30-16h00 Coffee break / meet the speakers
- 16h00-16h30 **Repair of oxidative DNA damage in various chromatin contexts: *in vitro* and live cell imaging approaches**
Hervé Menoni (*IAB, Grenoble*)
- 16h30-17h00 **Role of spatial chromatin (re)organization in recombinational DNA repair and genomic stability**
Aurèle Piazza (*LBMC, Lyon*)

Localization : ENS Lyon, Site Monod, Salle Condorcet, 1 place de l'école

UE Epigenetics & Disease

Organizers : Béatrice Horard & Armelle Corpet
Contact : armelle.corpet@univ-lyon1.fr
